evonicfires
quality electric fires built in britain

EVOFLAME INSETS AND STOVES

UK MADE

Evonic Fires occupy a 30,000sq ft manufacturing facility and produce some of the most advanced electric fires in the world, creating an abundance of products to fit any interior. Using components sourced from leading UK suppliers and assembled at our factory premises, Evonic Fires strive to achieve excellence with every fire we despatch. You can also be confident that in choosing an Evonic Fires appliance you are supporting British jobs, reducing your carbon footprint through shorter supply chains, and investing in a product that is built to last.

CERTIFICATION

Our company, CK Fires Ltd, are both ISO 14001 and 9001 certified. Our ISO 14001 certification is for our Environmental Management System, which assists us in minimising our effect on the environment through more efficient use of our resources and reduction of our waste. Our ISO 9001 certification provides guidance for our Quality Management System, which assists us to fulfil requirements and ensure customer satisfaction, while continuously improving the effectiveness of our operations.

NIBE GROUP MEMBER

CK Fires Ltd is a group member of NIBE, a Swedish multinational company that specialises in energy-efficient and environmentally friendly heating solutions. NIBE is a world leader in heating technology, with a wide range of products and solutions for homes, commercial buildings, and industrial applications.

Here for you...

NATIONWIDE RETAILER NETWORK

With our extensive network of over 300 dedicated retailers, it has never been easier to find the Evonic fire you are looking for. Our website features a detailed search engine to locate your nearest Evonic Fires dealer, and you can even narrow the search down to find particular ranges or models using our product filter tool. Scan the QR code to view our retailers page.

CUSTOMER SERVICE

Our dedicated team work tirelessly to ensure we offer the highest calibre of customer service. The Evonic Fires sales department are always on hand to answer any queries you may have regarding our products before or after you make a purchase, and our knowledgeable service department will always have time to discuss any after sales questions, to ensure you are getting the best performance from your Evonic fire.

FIVE YEAR WARRANTY

All our products come with a five year cover as standard. For year one, parts and labour will be covered, and to qualify for the additional four years, parts only warranty, consumers will have to register their product on the Evonic Fires website within 30 days of purchase. During years two to five there will be a manufacturers chargeable service call out option. Scan the QR code to be taken to the product registration page.

Simple operation

Our inset models come with a choice of two control methods, so you can choose the preferred method to operate your new fire that best suits your needs. We offer our inset range with a simple manual control option, with ON/OFF and heater switches located on the side of the fire, or for a more accessible control platform you may wish to choose the Evonic handset. This is an easy-to-use remote that allows access to two heat settings: high or low, brightness control, and timer settings.

Our stove collection offers a multitude of control options to suit every customer. Users can enjoy the ambiance and warmth of an Evonic stove, all whilst controlling it from the comfort of their sofa using the e-smart cloud app, the e-smart remote, or voice control. All platforms allow full access to the features of your stove, including heat settings, animation selection, LED brightness, and animation speed.

Each product page will show icons indicating what control methods are applicable with that particular Evonic product.
